## GEN. FRANCO STILL DELAYING INSURGENT ATTACK ON MADRID

### BOMB VERSUS BATTLESHIP.

Committee Favours Capital Ships  
Against Bombing Planes

London, To-day.  
The First Lord of the Admiralty, Sir Samuel Hoare, in a speech at Edinburgh yesterday, revealed that the sub-committee of the Committee of Imperial Defence which had investigated the "Bomb versus Battleship" controversy had unanimously recommended in favour of the capital ship and against the substitution of bombing planes.—Reuter.

### GERMAN NAVAL REARMAMENT

Feverish Construction  
At Kiel

26,000 TON BATTLESHIP  
BEING BUILT

Berlin, To-day.  
German naval rearmament is proceeding rapidly. The shipyards at Kiel are working night and day. The ships being constructed at Kiel include a 26,000-ton battleship; a sister-ship to the Scharnhorst, launched at Bremen on August 3; and a 10,000-ton battleship of the Deutschland type.

It is expected that the 26,000-ton battleship will be ready for launching at the end of November. It is likely to be christened the "Gneisenau".—Reuter.

### NAVAL MATTERS

Anglo-German Plans  
Considered

"CHINA MAIL" SPECIAL  
Berlin, To-day.  
With reference to the Anglo-German conference on the question of naval limitation, the following announcement was made by an official news-agency yesterday: "In continuation of the negotiations on qualitative naval limitation, the German Charge d'Affaires and the German Naval Attaché in London have submitted to the Foreign Office a reply to the last written statement of the British Government."—Trans-Ocean Service.

### NAVAL MUTINY AT LISBON

28 Of 91 Convicted By  
Military Court

Lisbon, To-day.  
Ninety-one Portuguese sailors are being charged in the Military Court with mutiny on the sloop Alfonso Albuquerque and the destroyer Dao in the Tagus on September 8, last.  
Twenty-eight of them were convicted and sentenced to varying periods of imprisonment and deportation. The remaining 63 are to be tried tomorrow. One hundred others, arrested on the day of the mutiny, were found not guilty of insubordination and discharged.—Reuter.

### FLEET MOVEMENTS

The American Transport, Gold Star, is expected to leave the Colony to-day for an unknown destination.  
The Chinese Cruiser, Tze Chiang, arrived yesterday from Amoy and fired the customary salutes, while two Chinese transports, the Wing Fook and the Hai Jui, also arrived at the same time and from the same port.

## MARTIAL LAW IN SUYUAN

### EXPECTED INVASION OF THE TERRITORY

HOSTILE FORCES ON TWO FRONTIERS

(From A Special Correspondent)  
Canton, To-day.

Martial law has been declared by General Fu Chai-ye, Pacification Commissioner for Suyuan Province, for the whole province. It is learned that Li Sau-suen and Wang Ying are ready to invade the province from the East and West frontiers respectively.

Mr. Y. Suma, the Secretary-General of the Japanese Ambassador to China, has called Mr. Ku Chung-mo, the Director of the Asia Bureau of the Chinese Foreign Office, during the last few days, but the date of the 4th Chang Chun-Kawagoe meeting has not yet been definitely fixed. It is reported that Mr. Kuwashima, the Japanese Envoy, returned to Tokyo on Monday and made a report to Mr. Arita, the Japanese Foreign Minister about his mission. The Japanese Foreign, War and Naval Ministries held a joint meeting yesterday morning to discuss the report of Mr. Kuwashima, so as to fix a new agenda for the coming Sino-Japanese negotiations.

### MORE BLUEJACKETS IN SHANGHAI

Renewed Japanese Activity

MARCH THROUGH THE STREETS

(From A Special Correspondent)  
Canton, To-day.

At 5 p.m. yesterday, 500 more Japanese bluejackets landed at Shanghai, and it is learned that the present total number of Japanese troops and marines in Shanghai is 6,000. Later, at 6.15 p.m., the Japanese marines marched along North Szechuen Road in ten companies of 50 men each, and as a result the people of Shanghai have become apprehensive again.

A number of traitors, it is alleged, are very active in Shanghai, and the Chinese police are searching for them day and night.  
It is understood that the Chinese Government will probably accept the appeal of the citizens of Greater Shanghai to cancel the Shanghai Truce Agreement, by sending troops there if the Japanese marines still patrol the non-military zone.

### LAWYERS STRUCK OFF ROLLS!

New Judicial System In China

(From A Special Correspondent)  
Canton, To-day.

The improvement of Chinese judicial procedure is considered very necessary, and members of the Kwangtung Higher, Local and District Courts are required to go to Nanking to attend a training course of six months.

It is reported that all the licenses granted by the former South-western Political Council to the lawyers in the two Kwangs are cancelled by the Judicial Yuan, it being stated that the lawyers concerned must apply to the Central Government for an examination before they are allowed to practice again.

### BRITISH LOAN FOR CHINA?

\$5,000,000 FIGURE MENTIONED

(From A Special Correspondent)  
Canton, To-day.

It is reported that the British Government will make a loan of \$5,000,000 to China, and that the contract will be signed in the near future. As for the terms and arrangements of the proposed loan, they have not yet been announced.

SHARP REACTION IN TOKYO  
Tokyo: There has been a sharp critical reaction to the British export credit of several millions of pounds, alleged to have been arranged on the lines of the credits given to Soviet Russia. It is declared that no official report has reached the Foreign Office; nevertheless it is pointed out that while Japan has no occasion to object to a constructive loan, she has taken objection to a credit of a political nature, which will disturb the stabilisation of East Asia and will thereby constitute a menace to the existence of Manchukuo.

Mr. Yutaro Tomita, Director of the Finance Bureau, stated that the credit to China would probably be used to replenish the Chinese exchange stabilisation fund, though a portion might be used for the importation of British goods.—Reuter.

### ANOTHER FIRE IN CANTON

One Killed And Many Injured

Canton, To-day.  
At 2 p.m. yesterday, a big fire broke out in a Kerosene shop in Pak Kae Road in Kei Cheong East Bund. As a result one of the shop was killed, many were injured and 3 bamboo wharves and 18 houses were burned down. The total loss is not yet known.—From A Special Correspondent.

Miss Dorothy Kilgallen, the newspaper correspondent of International News, photographed in front of the specially chartered Puss Moth machine in which she travelled from Hong Kong yesterday, in a desperate effort to make a connection with the Hawaiian Clippers, at Manila, in the newspaper round-the-world marathon race against Bud Ekins, of the New York World-Telegram and Leo Kiernan, of the New York Times. (King's Studio).

## IMPROVED SITUATION IN PALESTINE

FIRST NEGATIVE BULLETIN SINCE TROUBLES BEGAN

London, To-day.  
It is authoritatively learned that the Palestinian Commission will not leave until order is completely restored in Palestine. According to a message from Jerusalem, owing to the improved situation the curfew from last night was at 9 p.m. instead of 6 p.m., with the possibility of complete dispensation by the week-end.

The streets were animated last evening, as a result of the extension of the curfew hours owing to the ending of the strike. Crowds gazed at the illuminated shop-windows and filled the cafes.

### "DOUBLE TENTH" AT SWATOW

INTERNATIONAL GATHERING MARKED BY GREAT CORDIALITY

Shanghai, To-day.

On the occasion of the Silver Jubilee of the Chinese Republic, the Mayor of Swatow, Mr. Chan Tong Chiang, held a reception at the Municipal Offices at noon on October 10, which was attended by the Consular Body, local officials and prominent Chinese merchants.

In the evening the Chinese members of the International Club gave a dinner party to the foreign members and other foreign residents at the Ming Fong Restaurant, and there were present some 120 people. The utmost cordiality prevailed. The Mayor of Swatow proposed the health of His Excellency the Chairman of the National Government, Mr. Lin Sen, in a speech which was heartily applauded. Dr. T. C. Pan, Chairman of the International Club, proposed the health of the guests, to which Mr. C. G. C. Asker, the Commissioner of Customs, responded, and these speeches were also marked by a felicity of expression typifying the friendship existing between the Chinese and foreign communities in Swatow, to the cultivation of which the International Club, which formed last year, has done and is doing so much.

After dinner all adjourned to the International Club in Kialat Road, where a varied programme of Talks and dancing was enjoyed until 2 a.m.

The presence of many Chinese ladies added much charm to the spontaneous gaiety that marked the celebrations on the "Double Tenth" and the evening is one that the foreign guests will always remember as quite the most delightful social function they have attended in Swatow.—Reuter.

### FAR EAST R.A.F. ESTABLISHMENT

Another Squadron Leaves England

London, To-day.  
To-day five Short Singapore III flying-boats start the first stage of an 8,000 mile flight from England to Singapore, where they are due early in November as an additional squadron to the establishment of the Royal Air Force in the Far East Command.—British Wireless Service.

### FRANCO-BELGIAN INCIDENT

Rexist Refused Entry Into France

"CHINA MAIL" SPECIAL  
Paris, To-day.

The leader of the Belgian Fascist Party, known as the Rexists, M. Degrelle, who was to attend a banquet here yesterday, was not permitted to enter France. This action on the part of the French authorities has caused considerable astonishment in Belgian political circles, and the Rexist deputy M. Deye, who is at present in Paris, has already made the necessary official representations.—Trans-Ocean Service.

## LAST RAILWAY LINK TO BE SEVERED

### FEVERISH MEASURES FOR DEFENCE

FOOD-RATIONING AND EVACUATION OF MILITIAMEN'S CHILDREN

London, To-day.  
Another day has passed without the opening of the insurgent attack on Madrid, and reports of fresh skirmishes around the capital indicate that General Franco is not ready to order the general advance. The insurgents now occupy the five principal sectors running clockwise round the capital from the south to the north-east, but it is believed that the Madrid-Valencia Railway is still working.

The insurgents claim that they made a further air raid on Aranjuez station, a vital railway junction. It appears that the insurgents are hoping to cut this communication before beginning the advance on Madrid.

Madrid: Food rationing, whereby it is hoped finally to abolish food queues in the capital, begins to-day, while a new order has been issued under which no householder is allowed more than one mattress and two blankets. Any excess is to be handed to the Government for the use of the Militia.

The burning topic is now the defence of the capital, while every edition of the newspapers is urging that the Courts-Martial sitting in the various prisons in Madrid shall continue to function, while another Court is to be established to deal with charges of high treason other than those concerning military officers.

Twenty-seven people were sentenced to death at the People's Court at Albacete for firing at a troop train en route to suppress an insurgent rising at Hellin. The evacuation of the children, mostly orphans, of Militiamen or the children of refugees from the surrounding country continues from Madrid to the coast. Six hundred left on Monday for Murcia.

The violent street fighting continues at Oviedo. Miners armed with dynamite are furiously attacking the quarters where the insurgents are holding out. A column of miners is reported to have checked and inflicted heavy losses upon the Moorish insurgent reinforcements.

(Continued on Page 10)

## STOP PRESS

More Conflicting Reports

London, To-day.—Reports from Spain continue to be conflicting. A broadcast message from Barcelona states that the Government troops have advanced further into Oviedo, capturing the Innatic asylum, which was heavily fortified. It is also claimed that the Government troops dominate the barracks and are in possession of all the suburbs in the surrounding districts.

Fighting is now proceeding in the main streets of the town. On the other hand a radio message from Cadiz says that the insurgents from Galicia have reached the gates of Oviedo, where they have occupied strong positions.

It is announced that the insurgents are threatening Madrid from the north-east and have advanced 15 miles nearer the capital in the direction of Guadalajara and Alcala de Henares.

In the south the insurgents claim the capture of Penaroya and Puellicueva, Delaterra, but on the Avila Toledo road the Government troops claim the re-capture of San Martin and Delaterra.—Reuter.

### INSURGENTS ENTER OVIEDO?

Burgos, To-day.—Insurgent circles unofficially claim that the insurgent column has entered Oviedo and has come into contact with the defenders.—Reuter.

### GERMAN CLAIM FOR COLONIES?

Ministerial Meeting At Berchtesgaden

CLOSE SECRECY MAINTAINED

Berlin, To-day.  
Very keen interest has been aroused by the extremely close secrecy surrounding the conference of Herr Hitler at Berchtesgaden with the Minister for Propaganda, Dr. Goebbels, and the Ministers of the three services and other key-men of the Nazi regime.

The only hint of the subjects discussed was the suggestion of a rebuilding plan for the city of Berlin, but as the last meeting between Herr Hitler and his chief advisers preceded the institution of two years' military service there is now considerable speculation about the possibility of a new move in the campaign for colonies.—Reuter's Bulletin Service.

### WILL PERRY TURN PROFESSIONAL?

Pointer Given During Seattle Interview

Vancouver, To-day.  
Fred J. Perry, the Wimbledon and American lawn tennis champion, interviewed before his departure for Seattle, said that he might play in the Davis Cup next year, but that was all.

Perry said that there was no more fun in tournament tennis, which was hard work with nothing to gain and everything to lose. "From now on I will not be playing tennis for my health," he concluded.—Reuter.

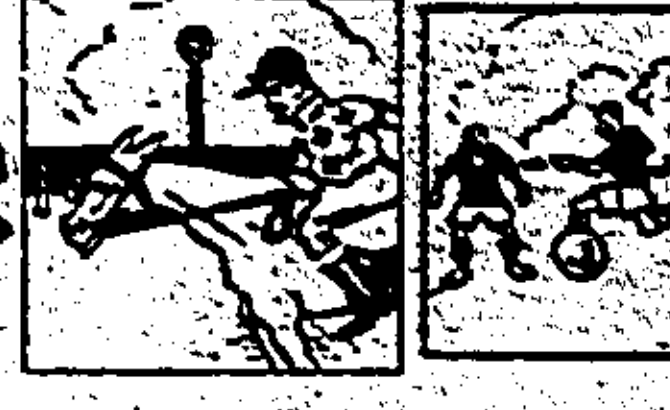

### EMPEROR DELAYED

## BRYN JONES SCORES VITAL FIRST GOAL AGAINST ARSENAL

### CLUB JUST DEFEAT POLICE "A"

### FAST INTER-SECTION HOCKEY CLASH

### BICKFORD'S LATE DECIDING GOAL

BUT for the fact that Hayward, the Police left-back, had the misfortune to deflect the ball into his own goal, the result of their Inter-Section Hockey Tournament match with the Hong Kong Club, played on the Radio ground yesterday, might have been quite different. As it was, the Police lost by the odd goal in three, but though they put up a good showing, it was quite evident that their early misfortune took some of the fight out of them.

The game started off at a terrific pace and due to the fact that the Club players were not quite at home on the fast sand pitch, they took some time to settle down. Once they settled down to it, however, they were a very workmanlike team and the outstanding players in the side were Jack Rodger, Willie Reed, B. I. Bickford and Sydney Fowler.

Divett played his usual bustling game, but should have been pulled up a number of times for turning. A word of praise must also be given the left back, E. V. Reed, who played a cool and steady game, and it due to the fact that he went about his business in such an unassuming manner that he did not strike one as being outstanding.

### CROSS-HARBOUR SWIM

### Lady MacGregor's Special Prize

### BIG ENTRY ANTICIPATED NEXT WEDNESDAY

The Men's and Ladies' Cross-Harbour races, to be held simultaneously under the auspices of the Victoria Recreation Club and which mark the closing of the swimming season proper, will be held on Wednesday, October 21, starting from the Railway Pier, Kowloon, at 5 p.m. and ending at the Praya Wall in front of Messrs. Butterfield and Swire's offices.

An entrance fee of \$1 will be made and post entries will be received. A competitors' launch will leave Murray Pier at 4.45 p.m.

Lady MacGregor, wife of His Honour the Chief Justice, has kindly donated a special prize to be awarded to the first girl competitor, 14 years and under, who completes the course.

### Governor May Attend

His Excellency the Governor, Sir Andrew Caldecott, and Lady Caldecott have expressed their intention of being present at the finish, and Lady Caldecott will distribute the prizes in the V.R.C. Hall at the conclusion of the events.

Wilfred Lawrence is the present Cross-Harbour champion and is likely to retain the title, while Lionel Roza-Pereira and A. A. da Rosa are the two other V.R.C. stars who are likely to be placed.

### Chinese Entrant?

It is possible that Mak Wai-ming, winner of the Chinese Bathing Club's Invitation Harbour race two months ago, and also of the Hong Kong Chinese Civil Servants' Swimming Club event, will participate.

Prizes will be awarded as follows: Men's Open Harbour Race: 1st, 2nd and 3rd prizes. Ladies' Open Harbour Race: 1st, 2nd and 3rd prizes. These are in addition to Lady MacGregor's special award.

### MILK PAYS' TENNIS SCHOOL

The latest recruits to the ranks of lawn tennis professionals, Milk Pats, the Swiss star, who headed her country's ranking list for a number of years, is planning to open a tennis school at Lansanne. It will be only the second establishment of the kind in Switzerland.

Alice Marble, the California tennis star who was once told she could never play tennis again, is here shown holding the cup emblematic of the American women's singles championship. Miss Marble scored a three-set win at Forest Hills, Long Island, over Helen Jacobs, the former champion.

## BADMINTON EXHIBITION FOR TO-NIGHT

### SHANGHAI PLAYERS ENCOUNTER THE COLONY'S BEST

(By "REFEREE")

THE outstanding event in today's sports programme is the Badminton Exhibition at Club de Recreio where some of Shanghai's finest players will meet the pick of the Colony in several interesting matches.

The "tit-bit" of the evening will probably be the singles encounter between A. G. Meise, former Shanghai singles champion, and M. A. Oliveira, of Club de Recreio, one of the finest players in the Colony.

Another good match should be the Men's Doubles in which Meise and J. G. Forbes and a Colony pair which will be nominated this evening.

### Limited Seats

The programme is scheduled to commence at 8.45 p.m., and as there are only a limited number of seats available, intending patrons are advised to secure their seats early.

Owing to a previous engagement His Excellency the Governor regrets that he will be unable to be present. Sir William Hornell, one of the new Vice-Presidents of the Badminton Association will attend together with other Association officials.

### The Programme

The following is the final programme: Mixed doubles, two sets only, between A. G. Meise and Mrs. T. M. Burton, and S. P. Chan and Miss M. Griffiths. Games will be 15 points up.

Mixed doubles between J. G. Forbes and Miss Joan Massey and L. A. Carvalho and Miss M. Silva. Two games only, each 15 points up.

### HAPPY AND PEACEFUL TEST TOUR

Perth, To-day.—The M.C.C. Test tourists arrived here yesterday by motor-coaches and were officially welcomed in a very cordial atmosphere. Assurance of a very happy and very peaceful tour were the keynote of speeches made.—Reuter.

## BIG PART IN WOLVES' TRIUMPH

### BIG OFFER MADE FOR HIM BUT REJECTED

### WANDERERS' TWO-FOOTED PLAYERS

(By Frank Coles)

London, September 21.

BRYN JONES, the Welsh international forward for whose transfer Arsenal have made a tempting but unsuccessful bid of £8,000, played a big part in the defeat of the Cupholders at the Molineux Grounds. He scored the vital opening goal.

A very fine goal it was, too. A throw-in on the right should have been cleared by an Arsenal defender. Instead, Waring got the ball and tapped it back to Jones, who, from 15 yards, flashed in a shot that reached the net almost before the goal-keeper could move.

This goal, at the 14th minute, was just the tonic the Wolves needed. It gave their young players confidence and in another five minutes they were further ahead. As on the first occasion, the Arsenal goal-keeper was beaten from 15 yards without having a chance to save. Brown, the scorer, aimed a smashing drive for the far corner of the net and I never wish to see a better goal.

Two down after 20 minutes, Arsenal were in a hopeless plight. Not once during the first half could their forwards force an opportunity to strike back. The inspiration that carried them to triumph over Sunderland the previous Saturday never returned.

### INTER-SECTION HOCKEY

### K.I.T.C. Meet Nomads On Club Ground

An excellent hockey game should be witnessed on the Club ground this evening when the Kowloon Indians Tennis Club and Nomads meet in the Second Round of the Civilian section of the Inter-Section tournament between the Navy, Army and Civilian.

The K.I.T.C. are one of the strongest teams in the tournament, but will not have everything their own way if the youthful Nomad team play the same game as in the First Round, when they surprisingly eliminated the Police "B" team on the H.K.S.R.A. ground on the Marina.

At the Police Training School, the Radio and the Argonauts will replay their First Round match in which they shared two goals, and this again should provide another close encounter with the odds on the Portuguese team.

### CESAREWITCH

### 3 Horses Withdrawn At Eleventh Hour

### FRED FOX RIDING RONDO

London, To-day.

The following are the latest alterations for the Cesarewitch, which is being run to-day:

Chirgwin (Weston), Rondo (Fox), Negrier (Packham), Chosen (Sibbritt), Hands-Off (K. Robertson), Kepton (A. Burns), Carpet Knight (Power), St. Botolph (Mitchell), Fet (Richardson). Queen's Shilling, Newtown Ford and Stainforth have been scratched.

### THE BETTING

Earlier: Twenty-eight horses are likely to contest to-day's long distance Cesarewitch.

Despite the fact that he is top-weight, Lord Glensly's Buckleigh should start a warm favourite, which position is chiefly due to the fact that he is the best class horse in the field.

Newton Ford, which is second favourite, is suffering from a sudden temperature and is regarded as a doubtful starter.

The Earl of Harewood has withdrawn Queen's Shilling.

Wagering now is:

7 to 1 Buckleigh, 9 to 1 Hoplite, 10 to 1 Woodstock, 12 to 1 Chrysalis, Avondale, 16 to 1 Fet, Greyman, Solar Bear, 20 to 1 Near Relation, Jack Tar, 25 to 1 Rondo, Weather Vane.—Reuter.

The first matches of the season will be played next Saturday on the Club ground, the Club "A" side meeting the Navy, while the "A" XV will meet an Army side.

## Fine Police All-Rounder

POPE, the Police fast bowler, comes from a family of cricketers—he has two cousins who play for Derbyshire—but in spite of this he took little interest in the game until three seasons ago, prior to which he confined his sporting activities to soccer.

Pope was born at Newton, Derbyshire, but removed to Allerton, Nottinghamshire, at a very early age and was educated at the Allerton Church of England School. He played at inside-right at soccer for the school, and in 1926 captained the team which won the County School League. In the following year he was in the Mansfield Grammar School eleven at left-back and remained there till 1931, when he also played for the Old Boys in the Midland Amateur and Alliance League, both at back and in the forward line.

While at school Pope played cricket, but was never outstanding until his last year, when he was prominent with his bowling.

He joined the Hong Kong Police Force last year and distinguished himself in one of the first friendly games he played here, taking 6 wickets for 50 runs against the Indian Recreation Club second eleven, on the Police ground.

Though eagerly sought after by the soccer section of the Police Force, he has decided to play cricket this season, but he will play football when his cricket fixtures permit.

Pope is also a good billiards and snooker player.

## SHANGHAI VISITORS LOSE TO ISLAND TEAM

### Mrs. Dvojetz And Miss Massey In Limelight

### GOOD MEN'S DOUBLES MATCH

The Shanghai European tennis visitors concluded their programme in the Colony yesterday when they encountered Hong Kong (Island) in Men's and Ladies' doubles matches, sharing yesterday's spoils, although they lost the rubber by 14 sets to 8. The visitors first string men's pair only played one set owing to darkness, and their second string were compelled to abandon play for the same reason after completing two sets and four games.

The biggest surprise of the afternoon was the defeat of Mrs. Chin Chun-chin and Miss R. Perry, the Island's leading women's pair, by the Shanghai Ladies' second string, Mrs. Dvojetz and Miss Massey, who won all three sets.

### BOYS' FOOTBALL WIN

The Boys of the Royal Welsh Fusiliers scored a very creditable football win when they defeated the Regimental players, including Fusiliers Talbot, Evans and Rowlands, in a friendly match, on the Prince Edward Road ground, by 12 goals to 1. The Boys' forward line was in very good form and gave the Regimental backs a harrowing time.

Don Bradman's eleven defeated Victor Richardson's team by 6 wickets in the Bardsley-Gregory benefit cricket match which ended here yesterday.

The first innings scores were tied at 335, and Richardson's eleven scored 180 in their second innings.

At the close of play on Monday, Bradman's eleven had scored 92 runs for the loss of three wickets, and they went on to score 161 runs for four wickets yesterday Robinson contributing 57 runs towards the total—Reuter.

In the first innings Don Bradman made 212 runs in 202 minutes, hitting two sixes and 26 fours.]

### FRIENDLY NAVAL HOCKEY AT KING'S PARK

In a friendly hockey encounter at King's Park, a team from H.M.S. Tamar beat a team from the Petty Officers' Course (Kowloon) by 5 goals to 2. The Tamar led at the interval by a goal scored by Sig. Taylor, who added two more in succession in the second half to complete his "hat-trick." Sig. Tozer and Sig. Bromley scored the Tamar's two other goals while P. O. Chapman scored twice for the losers.

### NAVAL AIR ARM IN HOCKEY GAME

The Royal Naval Air Arm were forced to share two goals with the Police Training School junior team in their friendly hockey match at King's Park Lt. Wraith opened the scoring for the Air-men just before half-time, and the Police equalised just before the end through Rattan Singh, the left-half.

### SHANGHAI VISITORS LOSE TO ISLAND TEAM

(Continued from Page 2)

The standard of play on the whole was much better than hitherto seen, although Miss Massey seemed to be suffering from a strained back and tired in the latter stages of the match. Mrs. Dvorjets hit the ball hard and did much retrieving to good purpose, while of the Island players Mrs. Chiu played well at the net. Miss Perry's best shot was a drive down the side line, but these were very few and far between.

### Not At Best

S. A. and H. D. Rumjahn, the former Colony champions, were not at their best against Massey and Meise, although they won the only set at 3-7.

The best of the men's matches was that between T. G. Figgis and J. G. Forbes (Visitors) and Tsui Wai-pui and Paul Kong (Island). Although the Island pair took the first set with comparative ease, it was not long before their opponent found their true length. Forbes was extraordinarily good at the net and in his smashing, while Figgis delighted with some fine driving on the forehand, his volleying also being very sound.

Tsui Wai-pui was not at his ease, but this was probably because he was partnered by Paul Kong for the first time. Kong was not one to inspire confidence and fell down badly in the second set, which the visiting pair took at 7-5 after leading 4-1.

To-morrow night there will be a subscription dinner at the Kowloon Cricket Club for which a charge of \$3 is being made. It is hoped that a large gathering of tennis enthusiasts will be present.

### The Results

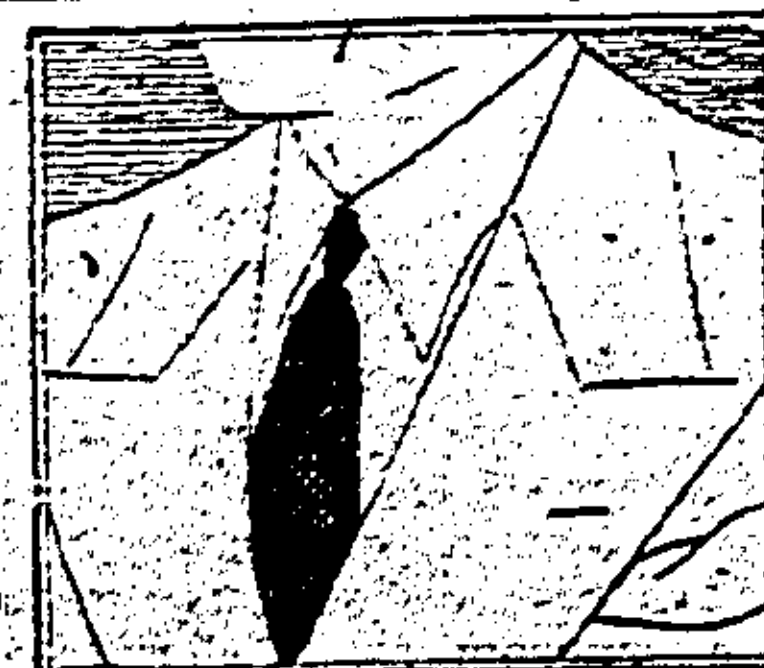

Scores were:—  
J. du Pac de Marsoulles and A. G. Meise (Visitors) lost to S. A. and H. D. Rumjahn (Hong Kong) 7-9.  
T. G. Figgis and J. G. Forbes (Visitors) beat Tsui Wai-pui and Paul Kong (Hong Kong) 1-6, 7-5, 3-1.

Mrs. B. Krenov and Mrs. M. Burton (Visitors) lost to Mrs. E. Litton and Mrs. R. Rumjahn 3-6, 5-7, 3-6.  
Mrs. Dvorjets and Miss J. Massey (Visitors) beat Mrs. Chiu Chiu-chiu and Miss R. Perry 6-2, 6-4, 10-8.

## BEATING THE WING FORWARD

### WHAT FAST PASSING CAN ACCOMPLISH

A CORRESPONDENT'S LETTER

(By Rowe Harding)

London, September 22.

IN a recent letter, a Cardiff correspondent expressed a fear that the wing forward's depredations would wreck the hopes of good Rugby which have been raised by the presence in Wales this season of so many brilliant backs.

The letter expressed a point of view which has the approval of an overwhelming majority of Rugby followers. It seems to be the general opinion that the wing forward is an unmitigated nuisance. Certainly he makes spectacular and effective back play more difficult than it was in the days of eight solid scrum-magers. The question is, What can be done about it?

Some say the remedy is solid shoving by the opposing pack to make the wing forwards, usually referred to as "the blighters," scrummage. Well, that has been tried before without success. Look at the melancholy record of the Welsh "steam roller" packs since the war.

The fact is that the good wing forward, for all that is said to the contrary, works very hard. True, he runs about a good deal, but he also applies his weight in the scrum for those all-important few seconds when the ball is being hooked.

### Cause Of Trouble

In any event, even if the other pack heels the ball with monotonous regularity, their backs have still to circumvent the wing-forward defence, which is the cause of all the trouble.

Another suggestion is that the wing-forward should be legislated out of existence, but I have not yet heard a convincing explanation as to how this is to be done.

Most people are in favour of a rule which would prevent a wing-forward from leaving the scrum until the ball is heeled, but that would not prevent him from cutting across the field from behind his own scrum to intercept a breakthrough by an opposing back. No, short of reducing the number of forwards to six, legislation will not solve the problem. I know I am in a hopeless minority, but I think the game owes a good deal to the wing-forward, and I would not like to see him disappear.

### Raised Tempo Of Game

His presence has made it necessary to raise the tempo of the game, which surely adds to its attractions as a spectacle. The trouble is that so few teams realise the necessity for that increased tempo.

I once formulated a rule to govern the speed of passing, somewhat in these terms: "Passing should be of such a speed that the ball should reach the wing from the scrum before the wing-forward can cover the same distance."

From practical experience I know this can be done. From observation I can safely say that not one first-class team in ten can attain and maintain that minimum speed of passing. When teams learn to do that, and to do it frequently and accurately, they will find that the wing forward will become a factor of diminishing importance. No wing-forward, however gifted with stamina, can last the pace against fast, accurate chain-passing.

### McAVOY-HYAMS TITLE FIGHT?

#### Eliminating Contest Comes First

London, September 22.

If the British Boxing Board of Control approve, Jock McAvoy, of Rochdale, will defend his British middle-weight title against Jack Hyams, of London, at Belle Vue, Manchester. The suggested date is October 25.

The Board, however, may not consent. There is an eliminating competition in progress, and in this Hyams has yet to meet the winner between Dai Jones, of Crouch, Wales, and J. McLeod, of Scotland.

Brighter Outlook In  
Palestine

The news that the interven-  
tion of the Arab kings in the  
Palestine dispute has resulted  
in the calling off of the strike  
can only be greeted with the  
heartiest satisfaction. That  
saner methods are beginning to  
prevail in this senseless and un-  
necessary dispute may, for the  
purpose of face-saving, be con-  
veniently put down to the  
intervention in high places;

but in fact, it will probably be  
recognised that all sections of  
the community, no less in  
Palestine than in England, are  
heartily sick of the whole dis-  
pute and the lawless conditions  
which accompanied it. In  
Palestine, therefore, the inter-  
vention of the Kings has been  
greeted as a good opportunity  
to call a halt to a campaign  
which was obviously doing as  
much harm to the people of the  
country as any such "war"  
could have been expected to do.

For some time it has been  
evident that, however much the  
campaign was supported by the  
people at large in the begin-  
ning, they speedily tired of  
attempting to continue to flout  
the Mandated authority, and  
that in fact the campaign of  
hole-and-corner methods of  
terrorism was being carried out  
mainly by a small, vociferous,  
fanatical section of the com-  
munity. It cannot be repeated  
too often that organised de-  
fiance of authority, accom-  
panied or not by murder and  
killing, simply cannot be  
tolerated by the State; it was  
obvious that while those condi-  
tions persisted in Palestine the  
State could not make the slight-  
est concession. The  
Mandated authority, in this  
instance, went as far as it pos-  
sibly could in agreeing to sub-  
mit all the matters in dispute  
to a Royal Commission with  
wide terms of reference; and it  
took the only possible stand  
when it insisted that before the  
Royal Commission could begin  
its work the organised defiance  
which the general strike re-  
presented should cease. This  
condition has now been fulfilled,  
and there is nothing to prevent  
a speedy and amicable settle-  
ment of the dispute.

It will hardly be denied that  
each side in the dispute has a  
case. Rightly or wrongly, the  
Jewish community holds that  
its immigration into Palestine  
has resulted in a large influx  
of new capital, which in turn  
has opened up what was a mori-  
bund country to unprecedented  
heights of material prosperity.  
Rightly or wrongly the Arab  
community holds that the Jews  
have been usurpers; that the  
material benefits they have  
introduced into the country  
have been bought at the  
expense of the Arab communi-  
ty; and that the Jews have no  
place in Palestine anyway.  
There is a large substratum of  
fact in both of these premises.  
The problem before the authori-  
ties now is to coalesce these  
opposing opinions into the  
greatest possible channel of  
harmony, and in this they will  
have a delicate task to perform.  
But the first requisite will be  
a certain amount of give and  
take on both sides. If the  
Arabs are going to sit back on  
their haunches and plump for  
the total prohibition of Jewish  
immigration—the discussions  
will get nowhere, because the  
principle of the matter has  
already been decided and can-  
not at this stage be jettisoned

EXPLANATION  
OF TO-DAYS  
CARTOONBlack Bart The Stage  
Robber

ON July 26, 1875 a grotesque  
figure clad in a soiled linen  
duster, with a white flour sack  
masking his face, successfully held  
up the Sonora-Milbon stage coach.  
The driver meekly surrendered  
the cash box, intimidated by a row  
of guns from an ambush in the  
roadside which later proved to be  
a clever arrangement of sticks.  
Thereafter at intervals, the stage  
coaches would be regularly held  
up by the same grotesque  
desperado, who would flourish a  
gun and hand the driver a note  
signed "Black Bart the PoS"  
(Foot).

On his 28th attempt to hold up  
the Wells Fargo stage, without  
ever pulling a trigger, the robber  
was interrupted by a deer hunter.  
In leaving abruptly, he left be-  
hind a handkerchief. Through the  
laundry marks the handkerchief was  
discovered to be one Charles E. Boles,  
a harmless looking inhabitant of  
San Francisco.

Boles was sent to prison for four  
years. When he was released, the  
Wells Fargo Express paid him a  
pension of \$125 a month, for which  
he obligated himself not to hold up  
any of the Company's coaches  
again.

completely; it is part of the  
Mandate Power's authority in  
Palestine. There is scope,  
however, for some stemming of  
the full tide of immigration by  
the Jews, and in this direction  
the Jewish community will  
have to show some inclination  
to compromise. In short, what  
is required is goodwill on both

## THE HAIG STATUE

If all goes well London will have  
a new statue in time for the  
Coronation. The equestrian statue  
of Lord Haig will, the Office of  
Works hopes, be unveiled next  
March or April—nine years after  
Parliament voted the money for  
its erection.

Mr. A. F. Hardiman's third and  
final design is now at the foundry.  
The work of casting in bronze—a  
delicate operation—usually takes  
something over seven months. The  
founders should finish early in the  
New Year.

The Haig statue will stand be-  
tween the Scottish Office and the  
Royal United Service Institution  
in Whitehall. Officers visiting the  
latter will be able to see how far  
Mr. Hardiman's latest design  
avoids the mistakes of the earlier  
models.

Of the original design Lt-Gen.  
Sir Edward Bethune said, "The  
horse looks as though it had fat-  
tened on turnips." Lady Haig was  
also critical. A second design was  
ordered by Mr. Lansbury, who was  
First Commissioner of Works at  
the time. Soon afterwards the  
second design had to be modified.

## JELICOE AND BEATTY TOO

Lord Stanhope does not want to  
risk any repetition of these trou-  
bles with the Jellicoe and Beatty  
statues now under consideration.  
He has arranged for a joint com-  
mittee of experts from the two  
departments to confer on the mat-  
ter.

After a site has been chosen  
for the statues—it can be taken  
that the two admirals will be given  
neighbouring berths—artists will  
be invited to submit designs. The  
Admiralty and Office of Works ex-  
perts will examine them to secure  
artistic merit together with accu-  
racy in details of uniform and  
personal appearance.

It is likely that one artist will  
execute both statues to secure  
uniformity and harmony. To-  
gether about \$15,000 is available  
for the work.

A dinner dance will be held at  
the Repulse Bay Hotel to-day at 9  
p.m.

REARING ORPHANS  
IN CHINANOVEL SCHOOLS BUILD  
FOR CITIZENSHIPEXPERIMENT SPONSORED BY MME.  
CHIANG KAI-SHEK

(By A. J. Billingham)

"DAUGHTERS of the Revo-  
lution," read the Chinese  
characters engraved over the huge  
granite gateway. The great steel  
gates clang open, and a broad  
gravelled drive is exposed curving  
up along a low foothill of the  
Purple Mountain. On a distant  
slope to the right the white mar-  
ble tomb of China's revolutionary  
leader, Dr. Sun Yat-sen, turns red  
in the evening sun. On another  
slope, to the left, rises the sharp  
needle-like spire of a new pagoda  
erected to the heroes of the last  
civil war. All about are tombs  
and temples, centuries old, remin-  
ders of an ancient China.

Here in Nanking, in the midst  
of this natural beauty, in this  
centre of Chinese culture old and new,  
two new schools have been estab-  
lished. They are revolutionary in  
name and they are also revolution-  
ary in character. Not smart in  
the strictest sense of the term, the  
students are almost entirely from  
families of humble origin. The  
institutions are, however, exclusive,  
for the children have in them the  
best blood in China. They are the  
orphaned sons and daughters of  
the heroes of China's Revolution-  
ary War. Their fathers died valor-  
ously on the field of battle.

War Orphans Neglected

About eight years ago Mme.  
Chiang Kai-shek, the wife of Generalissimo  
Chiang Kai-shek, saw the need for  
schools of this kind. One year  
later the present institutions were  
established. Although China has  
fought more wars than any other  
country in the world, institutions  
to care for the children orphaned  
by these wars were unheard of.  
The number of children, so or-  
phaned would reach a total of mil-  
lions, and a poverty-stricken China  
would never be able to appropriate  
the money necessary for the main-  
tenance of adequate orphanages.

China's "First Lady" decided to  
make a small beginning. She be-  
lieved that once the schools were  
started, she could get them upon a  
self-supporting basis, and then the  
scope of this work could be en-  
larged. Madame Chiang did not

wish merely to house and care for  
these orphans until they were old  
enough to be turned out into the  
world to fare for themselves. She  
wanted to give them excellent edu-  
cations, to make them self-reliant,  
and to create fine and able citizens.  
She realised that the best material  
in the country to work with was  
here.

These two institutions are con-  
ducted according to plans that are  
a combination of methods used in  
England and in schools in the  
United States, with a dash of mili-  
tary routine thrown in for good  
measure. The boys' school is the  
larger, and the boys are appar-  
ently the more energetic and am-  
bitious.

## Sources Of Income

Connected with the boys' or-  
ganisation is a model dairy where  
pure milk is bottled according to  
modern methods and sold through-  
out China's capital city. There is  
also a small farm attached which  
raises sufficient vegetables for the  
needs of both schools and which  
sells enough to make a handsome  
profit besides. The boys also as-  
sist in the support of the schools  
by operating a workshop where  
many things, including toys, furni-  
ture, lacquered ware, matting, rugs  
and wicker furniture are made.

The girls have less time for  
profitable pursuits, the larger girls  
being entrusted with the care of  
the small children. This is really  
a part of their training, as it  
teaches them how to care for  
children. Altogether the girls  
number more than 200, most of  
them being less than 12 years old.

Mme. Chiang has been solely re-  
sponsible for an innovation in  
women's education. She has estab-  
lished within the school grounds a  
"model cottage." Here 10 girls  
at a time receive each a small  
apartment. In these little homes  
they are taught the arts of the  
housewife and are instructed to  
manage their establishments just  
as though they were actually mar-  
ried. What seems the most novel

## PROBLEMS OF DEFENCE

Sir Samuel Hoare's Outline

### OBLIGATIONS OF COLLECTIVE SECURITY

London, To-day. The First Lord of the Admiralty discussed imperial defence from the angle of inter-service co-operation in an address at Edinburgh last night. Sir Samuel Hoare began by recalling the main requirements of the defence programme, which were security of overseas communications, protection of home shores from attack, and defence of imperial bases and territories, and added: "The further obligations of collective security I do not elaborate, not because I have abandoned the ideal of collective security—I suppose in the difficult months of last autumn I worked as hard for collective security as anyone in Europe—but because I am convinced that our first duty, whether for ourselves or for others, is to make our own position secure."

"You cannot protect others until you can protect yourself. Nor incidentally can you have collective security without a collection. Collective security last autumn virtually meant the British fleet. When next it is applied it must mean something much more than the naval, military and air effort of a single country."

Instancing the importance of co-operation between the three services in a number of past occasions in British history the First Lord argued that planning for co-operation was now essential. With modern inventions, discoveries and development and a third arm of unprecedented speed the whole problem of defence had in the last 20 years become immeasurably more complicated.

#### NEW ORGANS NECESSARY

For new and complicated functions new organs were undoubtedly necessary, but how were they to be created? In the past the main strands of co-operation had been woven by actual experience, and so far as possible Sir Samuel Hoare thought the same policy should be pursued for the future. Already at least three valuable organs of co-operation had been evolved—the Chiefs of Staff Committee, the Committee of Imperial Defence, the Staff College in the Imperial Defence College, and the Ministry for the Co-ordination of Defence.

Referring to the proposals for a Ministry of Defence Sir Samuel Hoare gave it as his personal opinion that if ever there were such a Ministry it would come, not from outside action, but as a matter of established fact as a result, perhaps, of the duties of the three services becoming in the course of invention more and more approximate.—British Wireless Service.

Higgs. Apologies for absence were received from Mrs. E. W. Gardiner, Messrs. F. Mow Fung and Li Chor Chi.

It was decided that the Association should donate the sum of \$50 to the Street Sweepers' Society to assist in providing a shelter in Kowloon during the coming Winter.

#### Complaints Received

The Committee considered a letter from the Deputy Superintendent of Police Kowloon, requesting the Association to give its opinion on the proposed removal of the side route-boards from Kowloon buses. It was agreed that unless the boards could be replaced by front route-boards, they should be retained.

A letter from a Kowloon resident complaining of excessive noise emanating from the Cox's Road Playground was read. The Hon. Secretary reported that he had advised the writer to lodge his complaint in the first instance with the proper authority, it being agreed that the Association could take no further action.

A letter concerning prostitution from another resident was read and it was decided that the Secretary should inform the writer to make his complaint to the Police Department.

#### Kowloon Junior School

With reference to the Kowloon Junior School it was reported that the accommodation was adequate at the moment. The Sub-Committee regarded it as unnecessary to go ahead with negotiations towards securing new premises and advised that the matter be left in abeyance until such time as an increase in applications for admission necessitate further action.

It was decided to donate the sum of \$500 to the King George V Memorial Fund. It was also decided to write to the Headmaster, Central British School requesting that arrangements be made, if possible, to provide time-time buses for the students residing in Kowloon.

## REARING ORPHANS IN CHINA

(Continued from Page 4)

departure of all is the fact that real mothers in the nearby village entrust the "student wives" with the care of their babies during the day.

"Graduated And Guaranteed" This is the last phase in the education of the young women. After three months spent in the home of the model housewives they are graduated and are guaranteed to be good brides.

The boys and girls of these institutions come from all over China. They lead plain and frugal lives and are never pampered. Mme. Chiang says that, even if appropriations permitted, she would not give them more than they can earn for themselves in later life. Above all things Mme. Chiang intends that these children shall not become citizens with a false sense of values. They are mostly from the poorest families, and the aim is to better their ways of life and to improve their living conditions by giving them new standards.

Once the children enter these schools they are not permitted to return to their homes until after their graduation. There are several reasons for this stern regulation. In the first place, it would be expensive to send some of the children back to homes in distant sections of China. Secondly, once they returned to their families they might lose heart when faced with the conditions under which their people live.

#### Prepared For Life

In these institutions the boys and girls spend their youth, plan their own futures, choose their own professions and are urged to make up their own minds. Some choose music, others engineering, business or teaching. Some, both boys and girls, who entered the schools when they were quite well grown have decided to remain as instructors. The services of these people the schools have always preferred, for the routine of the institutions has been drilled into them and they make excellent leaders.

Mme. Chiang is proud of these schools. Every evening she makes an informal tour of inspection around the grounds and through the buildings. Little children appear from everywhere. They gather about Mme. Chiang, whom they call "Mama," and follow her wherever she goes.

Strangely enough, of two of the homeliest features of the schools Mme. Chiang is especially proud—the great, gleaming Chinese-style kitchens and the rows of wash basins and tiers of shower baths. In the rear of the bath-room is the laundry, and here every day dozens of little girls gather and scrub their uniforms.

#### Teaching And Criticism

The schools have a combined staff of 36 teachers. Their purpose is to instruct, not to attempt to direct the students' lives. Discipline in the institutions is not strict, but it is exacting. The pupils are carefully watched, although the supervision is not obvious. The students have an understanding with Mme. Chiang under which they are permitted to report to her anything which they think is unjust or which they think could be improved.

Mme. Chiang wishes to be fully informed regarding the actions of sincere but possibly misguided instructors; also she is greatly interested in the boys and girls and their work, and likes to be the students' confidants. She knows their aims and their ideals. She believes that she can always con-

## WIFE DRIVEN TO STEALING

To Help Invalid Husband

Chan Lau-koon, aged 19, a married woman, was this morning sentenced to three months' imprisonment by Mr. W. Schofield at the Central Magistracy for the theft of jewellery and money to the value of \$11.88 from To Lai-wah, a singing-girl, of No. 540 Queen's Road West, second floor. She was also charged with the theft of a quantity of clothing from Lai Cheung, a coolie, at No. 6 Smithfield, and with possession of a quantity of clothing at No. 18 Tung Loi Street.

On the first of these two charges she was fined \$25 or three weeks imprisonment, and on the last she was fined \$50 or one month's imprisonment, the sentences to run consecutively.

Sub-inspector Johnson stated that the defendant's husband was an invalid, suffering from cancer, and was unable to work. The woman had resorted to these thefts, unknown to him, in an endeavour to help him.

## WARNINGS NOT HEED

Theatre Manager Fined

Tsang Kim-hop, manager of the Wo Ming Company at Ming Yuen Gardens, was this morning summoned before Mr. W. Schofield at the Central Magistracy for advertising, presenting and carrying on a public performance without permission, on September 26, 27, 28, and 30 last. He was fined \$200.

Mr. W. M. Brown appeared for the defendant and pleaded guilty. Mr. B. C. K. Hawkins, for the prosecution, asked that a serious view be taken of the case as it was not one of ignorance but of wilful disobedience, several warnings having been given that the show should not be put on.

The company had applied for a permit in August but the Public Works Department were dissatisfied with the buildings, and though permission was given on September 19, for a display of fireworks, and later permission for juggling in the open air, the defendant was warned on each occasion that no performance was to be given in the theatre.

## MURDER TRIAL CONCLUDES VERDICT OF GUILTY RETURNED STRONG RECOMMENDATION TO MERCY

The Central Police Station shooting case was brought to a conclusion at the Criminal Sessions yesterday when the jury, after long deliberation, brought in a verdict of guilty against Bhag Singh, who was being tried for the murder of a fellow constable, Sahib Singh, at the Central Police Station at 5.10 p.m. on July 26, last. Sentence of death was passed by His Honour the Chief Justice, Sir Asholl MacGregor, but the jury, in returning their verdict, also made a strong recommendation to mercy.

Throughout the two-day trial, where he asked one of the pedestrians to buy for him 20 cents worth of *samsu*. Later he had another 20 cents worth of *samsu*. After standing there for some time he had another drink.

The Crown brought its chief witness, Dr. R. S. Begbie, Assistant Government Bacteriologist, to say that although accused was drunk when he examined him, he was not so drunk at the time of the crime as not to know what he was doing.

The following jurors were empanelled to hear the case: Messrs. C. Jackson (Foreman), Chan Fung-tin, Wong Shun-tak, W. Sharp, F. H. Lopez, W. G. Richards and P. A. Yvanovitch.

Mr. E. H. Williams, Assistant Attorney-General, appeared for the prosecution, and the accused was defended by Mr. W. N. Thomas Tam, instructed by Mr. W. M. Brown, of Messrs. Hastings and Co.

### Accused's Version

Accused said he was 32 years of age and had been with the local police force for 13 years. On the morning of July 26 last, he went on duty at 8 o'clock, finishing at noon. Before he returned to the station he had had drinks. On arriving at his room he was asked by B579 to go to the temple in the compound and get some pudding. He went and was reprimanded by the priest for drinking.

In reply to his counsel, witness said he had never quarrelled with anybody during his service in the force.

After he had handed the pudding to B579, he went out of the station for the purpose of buying drinks. That was about 1 p.m.; he did not know what time he returned. During the time he was out he drank about two bottles of *samsu*.

Counsel: Do you know anything about the shooting?

Accused: No. When did you come to know of it?—I came to know about it at 12 a.m. when I was told by the interpreter.

Now that you know of it, what have you to say?—I beg to say I have no grudge against any of them. What I did was under the influence of liquor. I did not know what I was doing. I have been 13 years in the force and made no trouble at all, though I have had a few reports for drinking.

### Had A Few Drinks

Cross-examined by Mr. Williams, witness said that before he returned to the station, after he had gone off duty, he had 20 cents worth of *samsu*, about half a bottle. He drank it behind a hawk's stall in Sai Street. The liquor had very little effect on him.

On leaving the station about 1 p.m., he went to Stanton Street

where he asked one of the pedestrians to buy for him 20 cents worth of *samsu*.

Later he had another 20 cents worth of *samsu*. After standing there for some time he had another drink.

Mr. Williams: Can you tell how many drinks you had?

Accused: No. When I went out I had 90 cents but when I recovered the next morning I found I had only 10 cents.

I put it to you that you knew what you were doing on that day, and have a full recollection of what happened?—No. After I had had the drinks I felt incapable and collided with a hawk, whereupon the people there shouted "Drunk! drunk!" I remembered nothing about that.

Do you remember loading a rifle?—If I knew what I was doing, why should I fire the shot? I have no grievance against anybody. I did not know what I was doing at the time.

### Counsel's Addresses

Addressing the jury, Mr. Williams said that although it was generally agreed that the accused had taken a considerable amount of alcohol, Dr. Begbie had stated that the prisoner knew what he was doing at the time. Counsel contended that the story given by the accused that he was more or less in a trance at the time could not be believed, because the prisoner did not take any of the rifles in the rack but his own; this showed that he knew what he was doing.

Mr. Tam said the plea raised by the defence was one of drunkenness, which was really not an excuse for the crime but was, in certain circumstances, taken into consideration.

### Running Amok

There was no doubt from the evidence that accused had had too much to drink and on that issue what he was doing was dangerous—then the jury was enabled to return a verdict of manslaughter.

Going over the evidence of the case, His Lordship said the jury could entirely disregard the petty squabble shortly after midday when a fellow constable objected to accused making a noise, as irrelevant to the issue.

After some further aspects of the case had been outlined by His Lordship the jury retired at 5.10 p.m. and returned at 5.50 p.m. The foreman then announced that three of the jurors had come to a decision but the remainder required further enlightenment on the question of insanity.

His Lordship reminded the jury that insanity had not been pleaded in defence of the accused and again addressed them on the legal aspect of the intoxication plea.

The jury retired again and returned to court with a verdict of guilty and a strong recommendation to mercy.

In summing up, His Lordship remarked at the outset that the

### Mother's Anxiety QUICKLY VANISHES WHEN BABY'S OWN TABLETS

Are used To Correct  
Childhood's Stomach, Teething  
And Bowel Troubles.

Not for babies only, but for children of all ages, Baby's Own Tablets are the safest, surest corrective treatment when the stomach is out of order, constipation is present, there is feverishness, colic, flatulence, worms are causing trouble, or there are symptoms of chill.

The prescription of a specialist in childhood's ailments, Baby's Own Tablets are pleasant in taste and easy in action; they cause no griping, nausea or other unpleasant symptoms such as castor oil, Senna or other old-fashioned laxative medicines do, and they are guaranteed absolutely pure and entirely safe for even the most delicate infant.

In tens of thousands of homes throughout the world Baby's Own Tablets have been the favourite children's medicine for over forty years. If you have children, your home medicine chest is not complete without them. Obtainable at chemists everywhere.

Facts of the case were to a large extent conclusive, and to a very unusual extent, they were undisputed.

After dealing with the legal aspects of the case, His Lordship continued: "It has been said that there is no evidence that the accused aimed at anybody, but that does not matter in the very slightest. It is no defence, if a person, who goes out deliberately armed with a lethal weapon and, without taking deliberate aim, discharges that weapon into a narrow and confined space occupied by a group of persons; to say, 'I didn't aim, I was only letting the gun off.' In this case the accused had a dangerous weapon, which he made dangerous, and with which he was acquainted."

Dealing with the special defence raised, His Lordship asked the jury to remember that the words intoxication and drunkenness had no definition in law. The law did say that if a person was so excessively under the influence of alcohol that the jury was satisfied that at the moment of the crime his reason was unseated and he was unable to form the intent—that is, that he was incapable of knowing that what he was doing was dangerous—then the jury was enabled to return a verdict of manslaughter.

Going over the evidence of the case, His Lordship said the jury could entirely disregard the petty squabble shortly after midday when a fellow constable objected to accused making a noise, as irrelevant to the issue.

After some further aspects of the case had been outlined by His Lordship the jury retired at 5.10 p.m. and returned at 5.50 p.m. The foreman then announced that three of the jurors had come to a decision but the remainder required further enlightenment on the question of insanity.

The jury retired again and returned to court with a verdict of guilty and a strong recommendation to mercy.

## COMMUNISM IN FRANCE

Border Demonstrations  
Deplored

STRONG PRESS COMMENTS

"CHINA MAIL" SPECIAL  
Paris, To-day.

The Communist demonstrations in Alsace-Lorraine, where the Secretary-General of the Communist Party, M. Thorez, poured abuse over Germany, will be followed next Sunday, it is declared, by another mass meeting in Mulhausen, also in Alsace, near the German frontier.

The Right-wing press deplores the activities of the Communists in such close proximity to the German border. It is declared that the German protest in Paris is a "painful humiliation of the French."

The *Journal des Debats* declares that France has little reason to be proud of the freedom of speech allowed to this "camouflaged enemy of the nation." Any Government deserving that name would have prohibited such demonstrations so near the frontier, since they could result in nothing but international tension, which was quite in keeping with the Bolshevik programme. The paper goes on to say that the country can no longer be governed by a group that makes one mistake after another.—Trans-Ocean Service.

### Incident Closed

Paris, Later: The Franco-German feeling arising from the references to Herr Hitler at the Communist demonstrations in Alsace-Lorraine on Sunday has suddenly died down. It is now stated that the incident is regarded as closed by both sides.—Reuter.

## OLD RESIDENT PASSES

Mr. S. M. da Cruz

We regret to announce the death of Mr. S. M. da Cruz, who passed away yesterday afternoon at his residence at Mosque Junction, after an illness of some months. He was just 52 years of age. The funeral will take place to-day, passing the Monument at 5.30 p.m.

ing the verdict.

### No Grudge At All

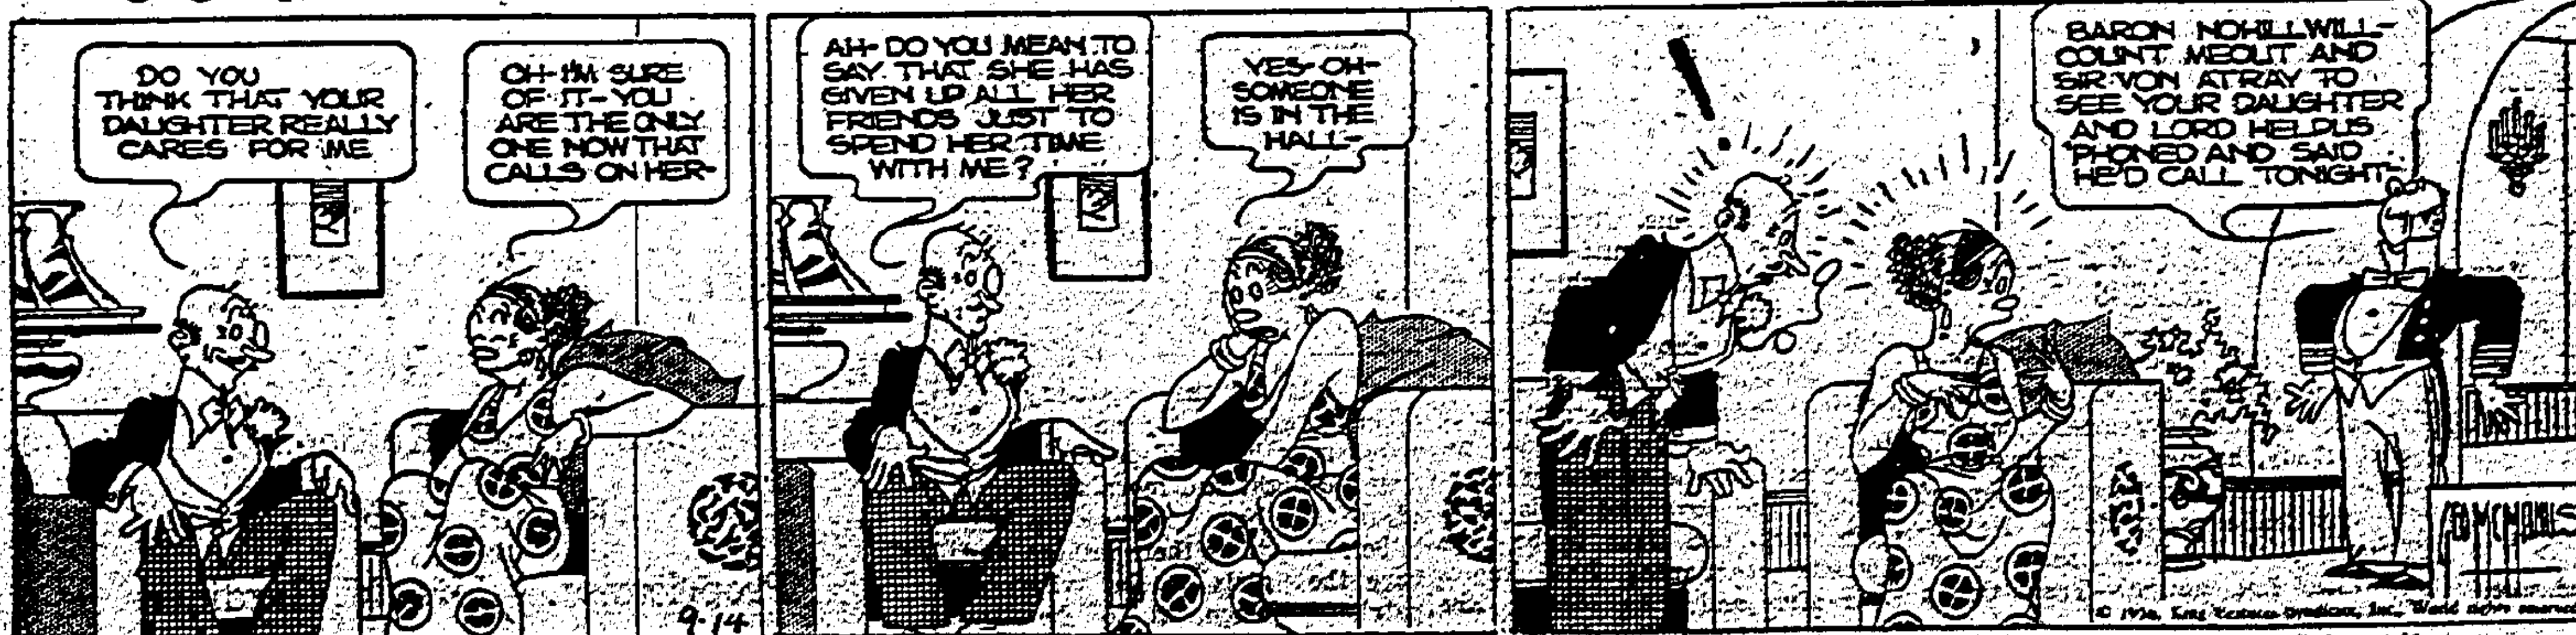

In reply to His Lordship's question if he had anything to say why sentence of death should not be passed, accused said: "If the prosecution can prove that I had a grievance against deceased, then I am guilty. I had no grievance at all. I had no grudge against any of them; what I did, I did under the influence of drink and when I was incapable."

Accused was calm as His Lordship put on the black cap and passed the death sentence, concluding with the words "... and may the Lord have mercy on your soul."

In passing sentence, His Lordship said: You have been found guilty on clear evidence of the murder of a brother constable and I vouchsafe the opinion that the verdict of the jury in this case, is a right one. The jury has coupled with its verdict a strong recommendation to mercy which I shall, of course, forward to the proper quarter, where I have no doubt that it will receive full and sympathetic consideration. I must pass on you the only sentence which the law prescribes for the offence of which you have been found guilty.

His Lordship thanked the jurors for their services and exempted them from further service during the remainder of the jury year.

Rubber Consumption  
Breaks Record

CONSERVATIVE PURCHASES ON  
LONGSIDE ADVISED

Messrs. White, Weld and Com-  
pany, New York Correspondents  
for Messrs. S. E. Levy and Com-  
pany report:—

Wheat.—Canada will be the  
principal source of imports  
supplies until early in 1937. We  
think that accumulation, prefer-  
ably of December position, on a  
easiness in Winnipeg or Chicago  
is advisable. Total sales: 25,204,  
000 bushels.

Cotton:—Domestic consump-  
tion for September amounted to  
654,000 bales, as compared with  
451,000 bales for September of  
last year. The estimate of domes-  
tic consumption for the year of  
7,000,000 bales is now more gen-  
erally accepted. Hedge pressure  
is again heavy, but should pro-  
gressively diminish.

Rubber:—The President of the  
Good-Year Tyre Company states  
that the 1936 domestic tyre con-  
sumption is expected to reach  
52,000,000 units. The consump-  
tion of rubber in the United  
States is making record high  
figures and we would advise con-  
servative purchases on the long-  
side.

Flash:—Steel mill production  
for the past week is estimated at  
7.59 per cent. of capacity.

YOUNG CHINA IN  
N. AMERICA

Students For The  
Universities  
GOOD IMPRESSION

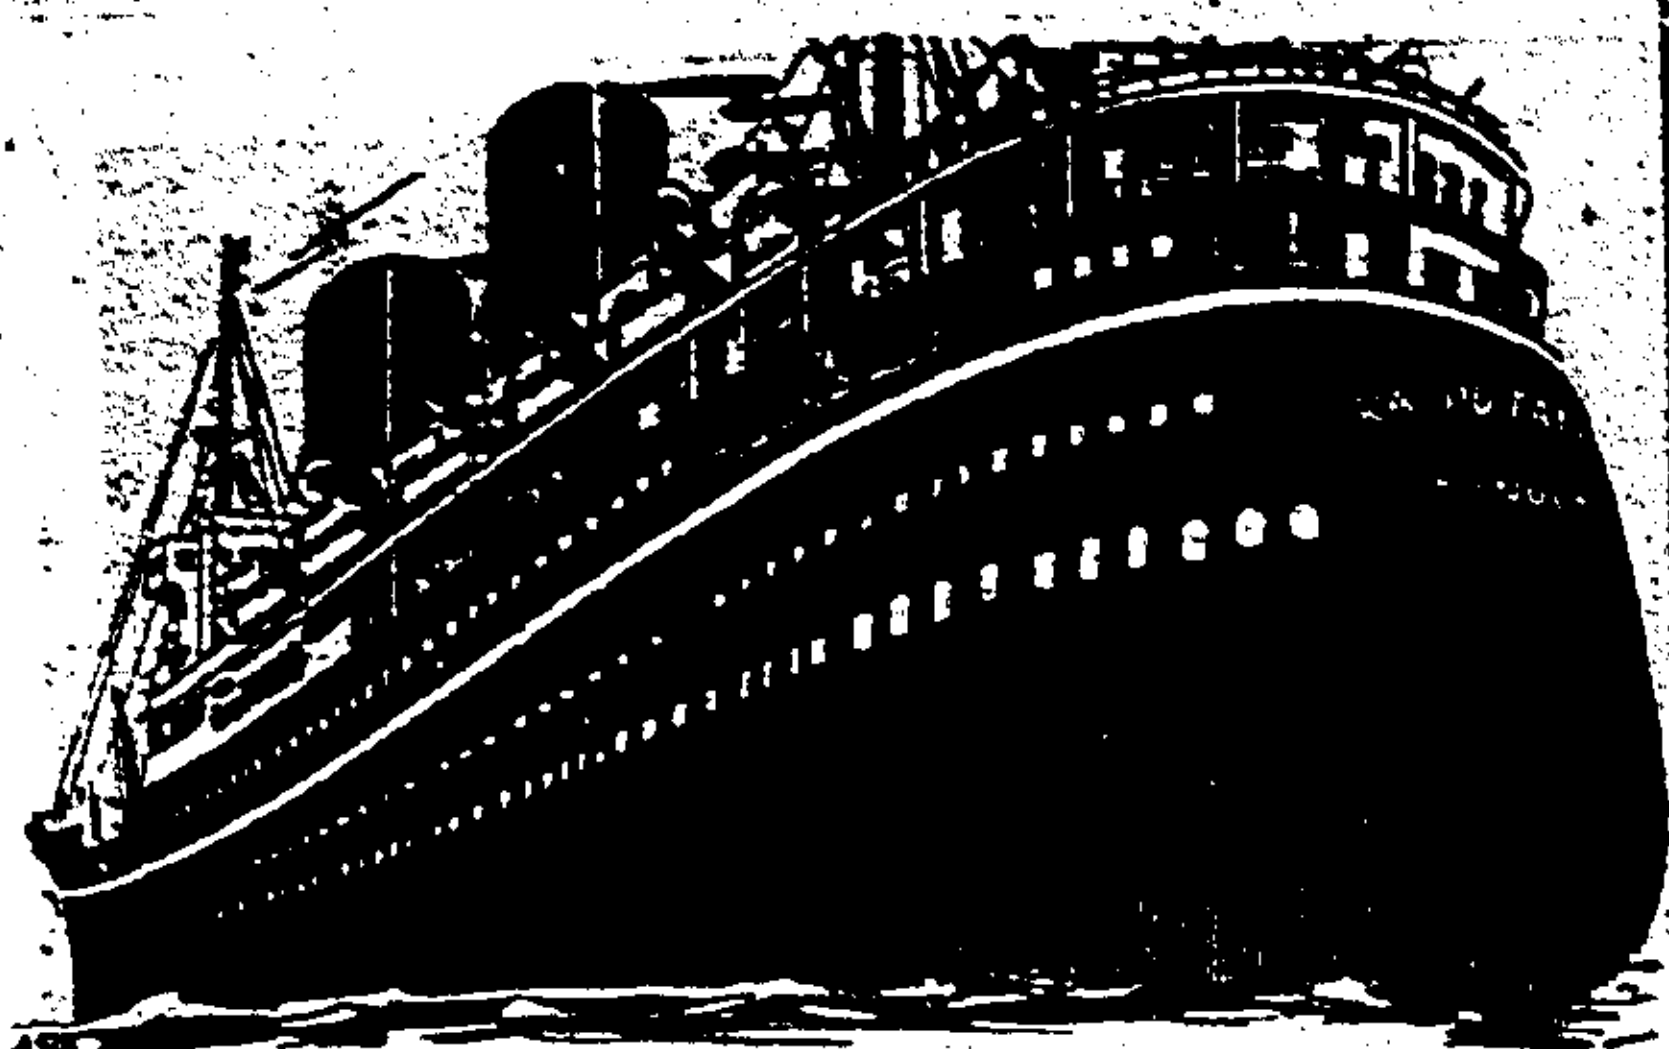

Representatives of the youth of  
China, ambitious and eager—35 of  
them, including five young ladies—  
recently passed through here on  
their way to study at various uni-  
versities on the North American  
continent. They formed the lar-  
gest student body ever to reach  
these shores from China. They  
were all graduates of Chinese uni-  
versities and were about to take  
post-graduate courses in various  
subjects.

Only graduates from these uni-  
versities in China are aided by  
the Government in foreign studies,  
explained the youthful leader of  
the group, Cheng Huan-shen,  
whose destination was the Uni-  
versity of Michigan, where he will  
study political science.

Although most of the students  
were en route to the Universities  
of Michigan, Cornell, Illinois,  
Pennsylvania, etc., in the United  
States, a few were on their way  
to the Canadian Universities of  
Toronto and McGill (Montreal).

Those who were privileged to  
meet the young Chinese students  
were of the opinion that if they  
were representative of the youth  
of that country the future of  
China was in good hands.—Reuters.

ROUND THE WORLD  
RACE

Fliers Arrive At  
Kai Tak

RADIO TELEPHONE  
CONVERSATION

Miss Dorothy Killgallen and Mr. Leo Kiernan, round the world travellers who were racing here on their aeroplanes to catch the s.s. President Pierce for Manila, arrived in Kai Tak yesterday. They were given a warm reception by a small crowd who had gathered in the aerodrome and who had to wait nearly four hours before Miss Killgallen's Small Moth hovered into sight.

History was made during the afternoon when, for the first time in the Far East, telephonic conversation was had between a passenger in a plane and the land. While the Imperial Airways plane Dorado was still over Hainan, nearly 300 miles from Hong Kong, a conversation was held between one of her passengers, Mr. Kiernan, of the New York Times, and Press representatives at the airport.

Later in the afternoon anxiety grew concerning Miss Killgallen, who was due to arrive at 1 p.m. in a specially chartered plane from Hanoi. The Small Moth which was to bring the newspaper woman did not turn up at the aerodrome until 4.40 p.m., though somewhat earlier word was received that the plane had been delayed by landing at Fort Bayard.

## Only Two Hours Late

When the Dorado arrived at 2.35 p.m. Mr. Kiernan stepped out with only a small suitcase as luggage and repaired shortly afterwards to the bar to which he was invited for a thirst quencher.

"I'm doing fairly well, I think," he said to those who were there to welcome him. "My schedule was mapped out last spring and I'm only two hours behind it owing to the headwinds delaying the Dorado. I am confident of catching the Clipper which leaves on October 16. That is what is called for in that schedule."

## Miss Killgallen Arrives

Miss Killgallen's plane circled over the aerodrome at 4.30 p.m. and finally drew up beside the Kai Tak hangar. Miss Killgallen spent only a short time at the aerodrome before stepping into the waiting car and making for the President Pierce.

"I know Leo will be waiting at the top of the gangway nearly frantic," she said. "We agreed when we last saw each other that if one or the other reached the boat first they would try and hold it up for the other."

## May Catch Same Clipper

Unless the typhoon which has held up the Clipper at Manila for some time continues to delay the departure of Bud Elkins, the two round-the-world travellers who arrived here yesterday have little or no hope of beating that traveller to New York. Elkins was to take off, weather permitting, at 6 a.m. to-day. Should the plane be delayed a further day, however, there is a chance that Kiernan and Miss Killgallen will catch the same Clipper, in which case the round the world race would develop into one across America.

URBAN COUNCIL  
MEETINGHAWKERS TO BE  
RESTRICTED

## NO TYPHOID EPIDEMIC

Mr. E. R. Todd, chairman of the Urban Council, made a long statement at the fortnightly meeting of the Council yesterday regarding the resolutions that in the future, no stallholder hawkers licences or itinerant hawkers licences would be granted to new applicants.

The main arguments put forward by the Chairman against hawkers were that they constituted obstruction to traffic and to scavenging, unfair competition with shop-owners, and a menace to public health. The only solution, he thought, was gradually to eliminate the food hawkers altogether.

Answers by the Government to questions put by Dr. Li Shu-fan referring to the outbreak of typhoid in the Colony were also given, it being stated that the Government does not consider that an epidemic exists at present.

## Typhoid Outbreak

Dr. Li Shu-fan, pursuant to notice, asked:

With reference to the outbreak of typhoid in the Colony, will the Chairman of the Urban Council kindly furnish answers to the following questions?

(1) Is the Government aware of the existence of an unusual outbreak of typhoid during recent weeks?

(2) What were the number of cases reported during (a) the past 10 weeks (b) the corresponding period of last year?

(3) What percentages of the cases reported during the past 10 weeks were (a) European (b) Chinese (c) local (d) imported cases?

(4) To what cause is the present outbreak ascribed?

(5) (a) What preventive measures are being taken or will be undertaken by Government with the view to controlling its spread? (b) In the presence of an epidemic what warnings are considered valuable and should be given to the public in respect of food, drinks, inoculation etc?

## Reasons Given

Replying, the Chairman said:

(1) The Government is aware of an increase in the number of typhoid cases during recent weeks.

(2) The number of cases is given in the attached schedule.

(3) The answer to Question 3 is given in the above-mentioned schedule.

(4) The present incidence is ascribed to the contamination of food and drinks.

(5) (a) The preventive measures being taken are the usual control of foods and drinks carried out by the Health Officers and Sanitary Inspectors.

(b) In the presence of an epidemic it is considered that warnings should be given to the public to the effect that they should avoid the consumption of (i) uncooked vegetables, unless they have been grown under sanitary conditions, (ii) iced, cold soup, cold drinks and ice-cream unless their purity is certain, and (iii) oysters and other shell-fish. The public should also be advised to undergo prophylactic inoculation against typhoid.

It is not considered, however, that an epidemic exists at present or that there is cause for alarm. Considering the cause of typhoid, (Continued in Next Column)

## BRIDGE NOTES

## Asking Bids

By Ely Callerton

The new technique of slam bidding through the use of asking bids has proved so deadly accurate that it has induced a mad scramble on the part of slam defenders to find effective interference methods. As a matter of cold fact, the asking bid system is aided rather than obstructed by opponents' attempted interference. Instead of shutting out the correct responses, opponents' bids often save a round of bidding for the side approaching the slam. I have yet to see a hand in which the defenders could have interrupted successfully the flow of information conveyed by asking bids.

\*Spades having been agreed on as the trump suit, South now makes an asking bid.

†Without West's double, North having no ace would have to sign off, at least temporarily, with four spades. The redouble, however, shows merely second round control of the asked suit.

‡South now investigates how many heart tricks must be lost, by making his second asking bid.

§Exactly the same situation as before. North shows second round heart control by redoubling.

¶South now knows that only one heart can be lost but still is uncertain about the club situation. North may have the K x x. To find out, South makes a repeated asking bid in clubs, enquiring about third round control.

‡North shows third round club control by means of his third redouble.

¶The six spade bid now is made in almost absolute safety, as accurately as though North and South had seen each other's hands.

Obviously, the only thing that could have defeated the beautifully bid slam would have been a fantastically bad adverse lay of cards, such as an opening lead of a heart and immediate ruff. As it was, the declarer had a "cinch," winning the opening king of clubs lead with the ace, ruffing a second round in dummy, ruffing a diamond into his own hand, and ruffing a third club with one of dummy's high trumps. Since the club suit broke 4-3, only one more club had to be ruffed, but even against a 5-2 division there was no danger. Without the opening lead of the heart ace, declarer, of course, could have made an overtrick, but this would have involved a slight risk and he wisely considered only his small slam contract.

The numerous possible sources of infection in Hong Kong and the long incubation period, the search for the sources of sporadic cases is like looking for needles in a haystack.

## NAHAS PASHA'S RETURN

### Triumphal Welcome In Alexandria

#### EGYPT'S INDEPENDENCE ATTAINED

##### "CHINA MAIL" SPECIAL

Cairo, To-day.

Yesterday was a gala day in Alexandria, which has never known such celebrations as were staged to welcome home Nahas Pasha after signing the Anglo-Egyptian Treaty in London. All restaurants and hotels were full to overflowing, the Stock Exchange was closed and hundreds of launches and small boats went out to meet the Egyptian ship that brought Nahas Pasha from Genoa.

The first official reception took place in a huge tent near the harbour. Here Nahas Pasha made a radio speech, in which he stressed how satisfactory it was that the independence of Egypt had been gained through the treaty. The party then proceeded through the city, which was gaily decorated with flags and triumphal arches and lined by thousands of onlookers behind a cordon of police, reinforced by Blue Shirts.

The Premier was then received by King Farouk in the Royal Palace. In the evening the Municipality gave a great banquet in honour of Nahas Pasha, and more festivities will follow. The party will then proceed to Cairo, where a large-scale reception is also being prepared.—Trans-Ocean Service.

## ANTI-GOD IN RUSSIA

### Senor Caballero "Honoured"

#### "CHINA MAIL" SPECIAL

Warsaw, To-day.

The members of the Soviet Russian "Godless Federation" have been ordered to pay 50 kopeks more a month for the erection of homes for the "victims of the struggle for freedom" in Spain. The first such home will bear the name of the well-known Spanish Communist woman agitator "La Passionaria."

In these homes it is intended to train 3,000 "Godless Children" to be pioneers of the "Godless Movement." In the hope of gaining the Spanish Government's recognition of the scheme, the Council has named the Spanish Premier, Senor Largo Caballero, an "honorary member" of the "Godless Federation," and in recognition of his fights against the church, his portrait will hang in every meeting-place of the federation.—Trans-Ocean Service.

## CIVIL SERVICE SALARIES

### Increases Pending In England

London, To-day.

Wages increase for the clerical grades of the Civil Service will result from the award of the Industrial Court, announced yesterday, on the claim of the Civil Service Clerical Association for higher maximum wage rates. The new award is estimated to be equivalent to an increase of 25 per cent. for the majority of those affected, and ultimately it is understood the increase will apply to about 20,000 clerks. The change from the old maximum to the new will be effected by annual increments.—British Wireless Service.

## THE TERRITORIAL ARMY

### Greater Intake Of Recruits

London, To-day.

The latest returns show that during the month of September 1,566 recruits were taken on to the strength of the Territorial Army, compared with 765 during August and 656 in September, 1935. During the six months April to September the intake of recruits was 21,638, compared with 18,282 during the same period last year.—British Wireless Service.

The Egyptian Premier, Nahas Pasha, above, received a tumultuous welcome in Alexandria yesterday on his return from London, following the signing of the Anglo-Egyptian Treaty.

## LAST RAILWAY LINK TO BE SEVERED

### (Continued from Page 1)

Rabat, The insurgent radio claims that 2,000 members of the Government forces have been killed at Oviedo.—Reuter.

## Only Death And Destruction

Paris: The food shortage in Madrid is becoming constantly more and more serious. To obtain food one must be ready to stand in a long queue.

Should the troops of General Franco enter the capital, the huge number of hostages in the power of the Reds will be shot immediately and important buildings dynamited, so that the invaders will find only death and destruction.

**LOYALISTS WEAKENING**  
Burgos: According to the latest reports of the Nationalist military headquarters, the vanguard of their forces has now reached a point 50 kilometres from the capital on the road from Telavera to Madrid, while another army progresses about the same distance on another road from the north. The resistance of the Government forces in this sector is said to be very feeble, principally owing to the lack of adequate military leadership.

## SUBMARINE WARFARE

### Five-Power Protocol To Be Signed In London

London, To-day.

A protocol supplementing Part IV of the London Naval Treaty as regards submarine warfare is being signed shortly in London by the British, American, Japanese, French and Italian Governments.—Reuter.

The Nationalist forces are also advancing towards Volvic, and relief of the besieged garrison appears imminent. In what is described as a bitterly fought battle on the Saragossa front, the Government forces are said to have lost 104 dead, while 23 machine-guns and a large quantity of ammunition fell into the hands of the Nationalists.

**ECHO IN PRAGUE**  
Prague: A diplomatic conflict is threatening between the former head of the Spanish Legation here, Senor Gaspar Sanz y Tovan, who placed himself at the disposal of the Nationalist Government at Burgos, and the new envoy from the Madrid Government, Senor Louis Imenez de Asua, who is arriving to-day to take up his duties.

Senor Tovar declared that he does not intend to relinquish his post, because the Madrid Government no longer represents the country, and if the Czech Government requests him to leave the Legation, it must guarantee the security of the Legation property and equipment.—Trans-Ocean Service.

## WEATHER REPORT

The eastern typhoon exists as a depression over the Pacific to the east of Japan. The local forecast for to-day, as issued by the Royal Observatory this morning, was north-east winds; fresh, fair.

## BRITISH CABINET RE-SHUFFLE?

### Successor To Sir Godfrey Collins

#### WELL-KNOWN PUBLISHER PASSES AT ZURICH

London, To-day.

The death of Sir Godfrey Collins, Secretary of State for Scotland, which occurred yesterday after a short illness in a nursing-home at Zurich, creating a Cabinet vacancy, may occasion a minor Cabinet re-shuffle, according to political circles. It is believed that Mr. Ernest Brown, Minister of Labour, may be promoted to be Secretary for Scotland, but it is pointed out that Mr. Walter Elliot, who has had previous experience in the Scottish office, possesses strong claims for the post.

If a Cabinet Minister is appointed Secretary for Scotland, it is believed that Mr. W. S. Morrison, Financial Secretary to the Treasury, will be appointed to the Cabinet.—Reuter.

## BY-ELECTION NECESSARY

A British Wireless Service message adds that Sir Godfrey, who was 61, was taken ill suddenly a few weeks ago while on holiday in Switzerland. The body will be brought back for interment in Scotland. His death creates a vacancy in the Cabinet and will necessitate by-election in the Greenock Division, which Sir Godfrey had represented continuously from 1910, first as a Liberal and since 1931 as a Liberal National. His majority at the last general election over his Labour opponent was 3,354.

Sir Godfrey Collins was for many years actively associated with the well-known publishing firm of William Collins.

## U.S. PRESIDENTIAL ELECTION

### Roosevelt's Scorn Of His Opponents

#### LONDON ISSUES WARNING TO LABOUR

Wichita, Kansas, To-day.

Carrying the offensive into Governor Alfred Landon's State, President Roosevelt, in a speech here yesterday, poured scorn on his opponents, who, he alleged, were "spreading the gospel of fear by means of political bedtime stories about the New Deal, and fostering class antagonism." The U.S. Government had taken the lead among the nations in restoring the economic peace so essential to military peace. He added: "We are gaining peace and security at home. I am confident of the support of the American people seeking peace and security abroad."

Toledo, Ohio: Governor Alfred Landon, in an election speech here yesterday, tacitly condemned the support given to President Roosevelt by sections of organised labour. He declared: "Its participation in party politics will inevitably prove ruinous to labour. Labour has false friends who in other countries have betrayed the men and women workers. They should beware of temptations and illusory promises offered by any Government, no matter how glittering and enticing."—Reuter.

## TWO TYPHOONS REPORTED

A message received by the American Consulate-General from the Manila Observatory this morning stated that at 8.30 a.m. to-day two typhoons were situated in the Pacific, respectively at about Longitude 125° E., Latitude 19° N., and Longitude 141° E., Latitude 16° N. The first was recurring north-eastward and the second was moving west-north-west. The respective positions are about 200 miles north-east of Aparri and some 80 miles east of the Philippines, in the open sea.

## DIED IN HIS OFFICE
